A nice anime figurine book for fans/enthusiasts alike!!!By RaidouAnime Figures: Tokyo's Hottest 50 Anime Figurines is a very nice book to view if you're into anime figurines from Japan. It features various game and anime girls from popular series such as Ciel(Shieru) and Shion from the Melty Blood Game Series, Belladandy from Ah! My Goddess, Rei and Asuka from Neon Genesis Evangelion, a few standalone original anime figures and so much more.The book is small for what you pay for it but is a wonderful addition to have to your library and barely takes up space on your bookshelf. And if you buy it brand new, it even

comes with its own stock book cover to protect your small book all around. All and all, if you love anime figurines then *Anime Figures: Tokyo's Hottest 50 Anime Figurines* is a good book to have in your library. The small price + shipping is worth having if you can't afford the more expensive import books and makes a wonderful reference book for illustrators, artists, and character designers alike. It's 80 pages and has a small amount of shots taken for each game/anime girl. Some of the figurines are a bit raunchy as it relates to nudity and sexiness but is very tasteful nonetheless. 0 of 0 people found the following review helpful. anime figuring – Tokyo 50 hottest anime figuring

A people it's me again I bought this book from this seller on the other day and I got it today. So if they got any more books I'm looking for. I've been buying it from them because I'm very please with their service. They was very quick on shipping it for me getting it there price was reasonable. The shipping cost was pretty reasonable. So if you're looking for someone to do business with. I would recommend these people because they are excellent. So far I can see the book I got an have no damage on it. It looked really good the package was excellent. So if I give this a rating 10 stars was the highest I would give them 20 stars, and if they keep up this high-quality service and I finally some more books I'm looking for on their through them I will be buying it from them. So this is just my pinion people, but so far they are excellent. So go check them out. Since possible.

I was drunk.

If you like your women sassy, sophisticated and synthetic, then get in line, 'cos anime figures are hot and getting hotter! The half-naked lumps of plastic that line the shelves of Japan's otaku stores ooze such sex appeal that demand and supply might as well live on different planets. That's all well and good if you're The Man, but with prices as high as a Tokyo tenth-grader's skirt, how's the "real fan" of My-Hime, ToHeart2, or even Night Shift Nurses, ever gonna get his hands on his significant other? The answer is *Anime Figures-Tokyo's Hottest 50 Figurines*. For much (much!) less than the price of one figure, 50 of the hottest girls to come out of Tokyo's sexiest anime productions are introduced in gorgeous, glossy full color. Some you already know--Rei Ayanami from Neon Genesis Evangelion, Mizuho Kazami from Please Teacher!--and some you're gonna wish you knew--Mizuki Tasake from Comic Party, and "bodacious bovine babe" Sanae Aizawa. Totally authentic, totally hot, this sizzling collection of PVC pin-ups is a must for every red-blooded anime fan. *Contains PVC Nudity
