I have a large collection of purses like many here that I inherited, so looked closely. It doesn't seem to be categorized very clearly, and lacks enough info on each purse. It's more like a catalog of "look what we own" rather than terribly informative. It's SUPER awkward to have to shuffle between the pic on a page (with dates, countries info only IF that much) to the back of the book to look up by page what the prices are for each bag. Why not just put the prices with the other identifying info on each page? Odd, but glad I bought it as a reference - such as it is.Almost forgot - re: the seller, the book was used but came as advertised. Decently preserved and nothing, you know, sticky or icky.0 of 0 people found the following review helpful. Prior reviews about this book are very
