There are 125 sketches of markings, for reference. Year 2000 pricing is provided, along with collecting guidelines, and a glossary of terms. The book is completely indexed for easy reference. Topics range from Austrian, Doulton, Harker, to UHL, Warwick and Zsolnay. Each topic is described. The volume is an easy to use reference work. With its handy size, you'll want to keep it with you when you antique. Add it to your library.6 of 9 people found the following review helpful. Personally, I shouldn't have botheredBy A CustomerI found this book to be very limited and incomplete. Of the dozen or so items I looked up, it had listed two. Even such categories as well documented as Royal Doulton were incomplete, leaving me guessing as to the value of my pieces. I really wouldnt recommend this to anyone.

The third edition of this guide to making informed decisions in buying and selling these popular collectibles. It covers the full range of ceramic products produced in the US, England and Europe from the 18th century through to the mid-20th century and should be of interest to both the novice and experienced collector.
