Excellent book on AusterlitzBy Paras SanghriThis is an Excellent book on the Austerlitz campaign, how Napoleon outmanouvered ad destroyed the Russian and Austrian army. I especially like the fact that it has many of the officers names and which units they fought in and little biography. Excellent plates, which are excellent painting guides for the wargamer or military modeller.0 of 0 people found the following review helpful. Five StarsBy D. The fourth book in an excellent series from Histoire Collections, Austerlitz covers the famous battle, the results of which saw Napoleon at the height of his power. A detailed text is accompanied by contemporary paintings and a vast array of graphics illustrating the uniforms and equipment of the soldiers of the time. By the same author and available from Casemate
