Expressions of Innocence and Eloquence: Selections from the Jane Katcher Collection of AmericanaBy JFWell produced book with excellent photography. The essays by noted folk art experts was a great concept however they were primarily geared towards historical context and overall presentation of photographed works in the book.A better format would have been these same individuals critiquing the relative merits of the pieces -- their strengths and their weaknesses, thus defining clearer for the reader how to assess the overall merits and quality of differing pieces within a sub-group -- in effect, their eyes educating the reader in the details and nuances of good folk art.

American folk art and decorative arts from the early years of the Republic are telling indicators of family traditions, aesthetic values, and household customs of the young nation. Showing us how creative and consumer cultures from the old world were transformed in the new, *Expressions of Innocence and Eloquence* presents more than two hundred examples of American folk art and decorative arts created in New England, New York, Pennsylvania, and Virginia in the 18th and 19th centuries. Drawn from the extraordinary Jane Katcher Collection, the book features familiar expressions of American folk art—portraits and carvings, quilts and needlework, weathervanes and whirligigs, family records and calligraphy, ceramics, furniture, baskets, and toys—as well as the unexpected—valentines, friendship albums, and keepsakes woven from the hair of loved ones.

“Folk art and Americana seldom get so lush a treatment.”—Art Auction (holiday gift books selection)
