Delightful Book By Savvy Entrepreneur Imaginative and interesting. I have considered doing Chanel inspired outfits for Barbie and wanted a reference for clothing construction. I do not recommend this book for doll repair education By A Customer This book is an advertisement-whole book features different artists that tell about themselves. The last few pages have instructions on making outfits for dolls. I am looking for an educational book on re-rooting, re-painting doll faces, vinyl repair, etc and was very disappointed in this book-it is useless for learning how to restore dolls.

One of the hottest trends in the doll world today is the making over -- from costumes, to hairstyles, to make-up of popular dolls. This volume, even better than the first one, demonstrates how a creative touch can transform an average-looking doll into a glamorous showgirl, a fashion statement, or even a whimsical creature of fantasy. Fifty artists from all over the world have sent examples of their latest work transforming BARBIE, Gene, Tiffany Taylor, Candi, Billy, Cissy and other popular dolls into one-of-a-kind works of art. The author has added a chapter 'How to Create Your Own Fashion Wonder', with 67 steps explaining how-to make recreations that will tempt even the least artistic doll lover to try!
