This is the third book I purchased for my wife's collection. She loves the book, and has added it to our coffee table.The hardcover book has a great binding, as well as quality paper, and crisp images.As the title states, this is a great little book to get for your loved one as a "just because" gift. It's priced great, and with Prime you can't beat the free shipping! also has special boxes that they use for their books, so you're not getting some huge box just for a book. Good job !0 of 0 people found the following review

helpful. Five StarsBy aleefrascaAwesome book. Perfect for people who are in love with fashion. Interesting!0 of 0 people found the following review helpful. Dreams in the bagBy I. YolandaVery inspiring for the amazing dream of creating bags. Bags that change the world and what you put in them.

Fifty Bags That Changed the World focuses on one of the essential accessories that power the fashion world today - the handbag. From the original 1860 attaché case to Matthew Williamson's 2010 Pucci Bean clutch, the book explores the top 50 handbags and backpacks, examining each one's iconic status in design history.
