**Jennifer A Lindbeck : Fine Fashion Jewelry from Sarah Coventry (Schiffer Book for Collectors)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fine Fashion Jewelry from Sarah Coventry (Schiffer Book for Collectors):

1 of 1 people found the following review helpful. Looking for an ID guide? Skip this one! By vintage gin For any even quasi-serious collector, this book is worse than unhelpful; it is erroneous. Less than 10% of the pieces are identified...and some of them improperly. One of the most iconic designs, "Midnight Magic" is identified as "Midnight Madness", twice. The "Pearl Flight" pin is described as a 'shell design pin'. Most pieces are simply described, for example, as 'necklace and matching bracelet.' No dates are referenced. A tremendous disappointment. You can learn much more about Sarah Coventry jewelry on ebay and Google. One plus...it's a great workbook for writing in your own identifications and catching the author's errors ;-)

MoneyBy Colene M.I purchased this book thinking that it would be helpful to me in my quest to identify Sarah Coventry jewelry. It has many lovely pictures, but hardly any names for the jewelry pieces shown. Since Sarah Coventry named so many of their items, I think it is necessary to have those names associated with the pieces. It does me no good to see a picture of what I already have and still cannot name it. The most helpful part of this book is in the back where the author has pictures of Sarah's catalog pages 1976, 1978, and 1980. Jewelry can be identified there if you have a magnifying glass. Also, I believe the author has unrealistic values on the jewelry shown. I see sets that she has valued at \$45-\$65 selling online for much less.0 of 0 people found the following review helpful. Great resourceBy Jennifer Y.Most complete book that I've found. I was able to identify over 90% of my pieces with this book. Lots of information and color photos.

In the 1960s and '70s, the fabulously versatile jewelry and fashion accessories from Sarah Coventry, Inc. were known as the "Finished Look of Fashion." These "simply chic" pieces were sold through in-home fashion shows, worn by stars and models, and advertised though TV, movies, and popular magazines coast to coast. With over 400 stunning color photos of jewelry and accessories, this exciting book rediscovers the still popular and highly collectible fine fashion lines from Sarah Coventry. Included are beautifully displayed bracelets, pierced and clip earrings, pins, pendants, necklaces, rings, belts, packaging and much more, along with company history, original catalog pages and advertisements, and both retail and current values. This essential guide to Sarah Coventry's "jewelry with know-how" will appeal to collectors, dealers, and all who admire costume jewelry.
