Payton Lee : Geneva's Star before purchasing it in order to gage whether or not it would be worth my time, and all praised Geneva's Star:

The seriesBy CustomerI have read the complete Geneva series and I find the series very entertaining. However unlike this book I was fortunate enough to access them through obooko, a legal free website. At this website I was able to tolerate poor editing for the incorrect use of words that are very prevalent throughout Payton Lee's works. When I pay for a book I expect a higher standard unfortunately this was not evident. Even though the story is worth a higher rating unfortunately the poor editing distracted from the story.

The love story of Samantha McGillinen of Geneva's Branch and Oakley Andrews. Oakley fell in love with her the moment he saw her. She was in danger, her family was in danger. He made his decision and took the first life in his career as a Pinkerton. Oakley saved her, her father, and her family. He was Samantha's hero. The love grew, but he was shy and she was only 15. They were meant to be parted until he conquered his demons and she grew into a woman. It was when she was grown they followed their hearts only to keep a secret.

About the Author Payton Lee is the author of children's books and Historical Romance books. She writes for pleasure and hope her readers enjoy her stories. This is another saga in the McGillinen Geneva series.
