Philip Varney : Ghost Towns of Northern California before purchasing it in order to gage whether or not it would be worth my time, and all praised Ghost Towns of Northern California:

The book had a number of sites I'd not heard of, and I'm an experienced ghost townner! Can't wait to get to 'em!3 of 3 people found the following review helpful. Nice pictures-dated informationBy bonzairacerI bought this to plan a northern California trip and it had some really nice pictures, but the information was dated and while quite specific directions were given to each site I had to use other references to plan routes from one site to another. It describes the sites quite well and is useful in helping decide what you would like to see, but of little use in planning a trip.1 of 1 people found the following review helpful. No one knows ghost towns--nor what ghost town lovers want to know about them--like Philip Varney. Tony Hillerman. Get ready for adventure as ghost town expert Philip Varney takes you on a tour of Northern California's most fascinating historic mining camps and ghost towns. *Ghost Towns of Northern California* provides background on the Gold Rush of 1849 and later strikes, as well as comprehensive information on more than 50 towns and sites--from out-of-the-way Campo Seco and New Idria to popular sites such as Coloma and Bodie. Varney also covers ghost forts, Chinese fishing villages, and the famous "ghost prison" of Alcatraz. If you're an armchair visitor, you'll appreciate the rich color photographs and descriptive text that bring the region to life. With chapters arranged by region and tons of travel information and maps, visitors will find this pictorial guide makes traveling the area a breeze. John Drew is the photographer of *Ghost Towns of Colorado*; he and his wife Susan Drew have photographed ghost towns throughout the West.

From *Library Journal* Varney has mastered the art of writing books on ghost towns of the West, having authored such guides as *Ghost Towns of Colorado* and *Southern California's Best Ghost Towns*. In his latest volume, he once again combines the elements of an interesting narrative blending the personal with the historical with excellent photographs that provide a glimpse of both the past and the present. Varney also includes the necessary tourist information pertaining to museums, tours, maps, and directions. The result is an outstanding travel guide to northern California's 50 deserted mining towns, plus the "ghost prison" of Alcatraz and a couple of Chinese fishing villages in the San Francisco Bay area, that also serves as a good supplement to books on the gold rush. Recommended for all public libraries in California and for larger libraries in the rest of the country.
