A. Glenn Mandeville : Ginny: An American Toddler Doll before purchasing it in order to gage whether or not it would be worth my time, and all praised Ginny: An American Toddler Doll:

0 of 0 people found the following review helpful. Good clear pix for the most partBy donna j RauGood clear pix for the most part, and the Ginny story is separated by years but there are more pix of those ugly 60's and 70's Ginny's than I would like and the prediction that ANY of those 80's era Ginny's were going to be collectible was WAY off base and a waste of pages. I see those 80's era Ginny's in the Goodwill all the time, in the box, with accessories. Not at all collectible. Wish they had put more examples of vintage clothing in here to use as a reference as to what the whole outfit would have looked like.1 of 1 people found the following review helpful. Doll Collecting ResourceBy Marsha CromA good book for identifying when Ginny clothes were made by the label, as well as telling the history of the Ginny dolls. I have already consulted it for identifying some clothes.0 of 0 people found the following review helpful. Can't go wrong with this bookBy slovakgirl5This is the definitive Ginny doll book. Glenn Mandeville is The Bomb when it comes to dolls, especially Ginny. This book is nice-sized, glossy pages and color pages every other page turn. Wonderful.

Book by Mandeville, A. Glenn
