Great Book!By Baby BoomerI enjoyed this book, even though I could find none of my own items listed in it. Wonder if any of the other volumes have them in it ... but I hate to have to purchase them all to find out! Good reference book, though, if you're just curious about old stuff!1 of 1 people found the following review helpful. Not very completeBy BillWe bought this book to help estimate the value of scores of items in an estate. Only one or two of the items was actually in the book and many popular antique collectibles were not even mentioned or just briefly referenced. The information provided is sketchy and somewhat confusing. Unless you get lucky looking up an item, the book is only good for general ball park figures seemingly based on "road show" prices.

The 43rd edition of America's leading price guide on antiques and collectibles, featuring all new actual prices in 700 categories and with more than 2,500 photographs Kovels' is the only guide that lists actual prices collected from the previous year's sales.
