Francis C. Frary : Laboratory Manual Of Glassblowing before purchasing it in order to gage whether or not it would be worth my time, and all praised Laboratory Manual Of Glassblowing:

0 of 0 people found the following review helpful. Five Stars By valerieXmas gift - he was very surprised by all of the info. inside. 0 of 0 people found the following review helpful. It might complete a collection, but not a good starting point. By Herb Person A rather thin book, short on detail and skilled drawings ... except for the appendix, which has many, many old recipes for making glass. 2 of 3 people found the following review helpful. lab manual of glassblowing. By Phil interesting information but not as instructional as it could be. i really expected more illustrations and production info based on the item description.
