The Globe Pequot Press : Lobstering Villages of Maine: A Postcard Book (Postcard Books) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lobstering Villages of Maine: A Postcard Book (Postcard Books):

The maritime heritage of coastal New England lives on most perfectly in the small lobstering towns and villages that dot the Maine coast and islands.

From the Back CoverLobster boats have plied Maine's rugged waters for generations, trolling the coast before returning to their village bays. These boats, their bays, and the communities that have grown up around them have a quaint allure and an old-world charm – quiet, classic, and timeless. These twenty postcards celebrate Maine's enchanting lobstering villages and rich maritime history. Each postcard is yours to treasure, to share, or to send.
